DRUGGISTS FEAR SOME ARE CAUGHT

State Inspector Has Been Engaged Here

Board of Pharmacy Summons Number of Them to Appear in Room at Palmer House.

AFTER ALL KINDS OF ABUSES.

Investigation of Paducah druggists by the state board of pharmacy has been going on for three weeks, and the state board has been in session at the Palmer House throughout today questioning the druggists. C. L. Dehl, of Louisville; J. W. Gayle, of Frankfort, and Edward Bloomfield, of Louisville, are the members of the state board holding the local investigation.

The investigation follows work done here three weeks ago by one of the board's inspectors. Quietly he went among the local druggists investigating their methods particularly of handling and selling poisons and narcotics. He reported to the board and the investigation was announced to the druggists today by the members of the board, telephoning them to appear before them in room 17 at the Palmer House.

Not only will whatever charges this inspector may have preferred, be threshed out, but the employment of unregistered clerks and other abuses of the drug stores are being investigated with a view to instructing the druggists how to comply with the laws.

One druggist, speaking of the session of the state board here, said that many druggists may have been charged with breaking the regulation by the inspector. His method was to enter a drug store and try to purchase a drug it is against the law to sell without a prescription. If the drug was sold to him, he would return later to see whether the druggist had kept an account of the sale on his registry book.

He investigated to see whether unregistered clerks were employed to fill prescriptions, and generally looked for any abuses of the state regulations. Some of the most prominent druggists were before the state board this morning and this afternoon the investigation is being resumed. Some of the druggists are invited merely to give information and to receive instructions on new regulations.

Dr. J. W. Gayle, of the board, said this afternoon:

"Worse conditions than some that exist in Paducah cannot be imagined. Conditions here are worse by far than in any other city in the state. We find that the two drugs, most specifically regulated are sold indiscriminately and actually in some cases by mere boys. No attempt at keeping track of the purchaser, labeling or physicians' prescriptions can be found in some stores. Cocaine and abortives are the drugs I referred to and the former is the only one on the abuse of which a license can be revoked.

"No prosecutions will follow this meeting except possibly in the case of cocaine selling, but in this we mean to offer no compromise. We have warned the druggists repeatedly here and this is the last warning. Future irregularities will be dealt with summarily. Mr. Bloomfield, who investigated the conditions here found 25 out of the 32 stores handling drugs irregularly. They are appearing before us today and we will close the investigation tomorrow morning. We will leave at 11:25 o'clock for Hopkinsville to finish our west Kentucky trip."

KENTUCKY LEASED FOR NEXT SEASON

George H. Goodman and Matt J. Carney Get It

Nothing Is Definitely Settled as to House Manager and the Other Employees.

LEASE RUNS FOR SIX YEARS.

In well informed circles it is announced that the Palmer Hotel company has leased the Kentucky theater to Messrs. George H. Goodman, of Paducah, and Matt J. Carney, of Chicago, for a term of six years, beginning with the coming season. The consideration of the lease is not given out. Interested persons, when seen today by a reporter for The Sun would not confirm or deny the rumor, but admitted that it was under consideration. However, it is known that everything is arranged except signing the lease.

Mr. Goodman is president of the George H. Goodman company, and is one of the most popular of the younger business men in the city. His associate, Mr. Carney, is a former Paducah boy, now western manager of the Union Carbide company, of Chicago, the parent company in the Acetylene gas business.

When seen by a reporter for The Sun Mr. Goodman said: "We don't know what changes will be made in the personnel of the employees. Mr. Carney will be here next week, when we shall close final arrangements for the house. Mr. Carney will continue his connections with his present employers, and I shall have the local end of the house management, with a representative in the box office. The policy of the new managers will be to give Paducah all the good shows that can be secured for the city, and nothing but good attractions. I don't mean by that we shall not have anything but high priced shows. We shall have a great many dollar and lower price shows; but the dollar shows shall play for a dollar admission only."

Whether Manager Roberts would be with the new managers is not yet learned, but he has a host of friends who hope he will be continued in his present capacity.

If Messrs. Goodman and Carney secure the Kentucky, the friends of Mr. Carney will see a long cherished ambition of his realized. He has tried for some time to get a theater in Paducah, even before the Kentucky was erected. A very talented amateur actor, he has always taken a great interest in things theatrical, and has always hoped to make the business end of the profession his vocation, some time, and the management of the Kentucky seems to be a step in that direction.

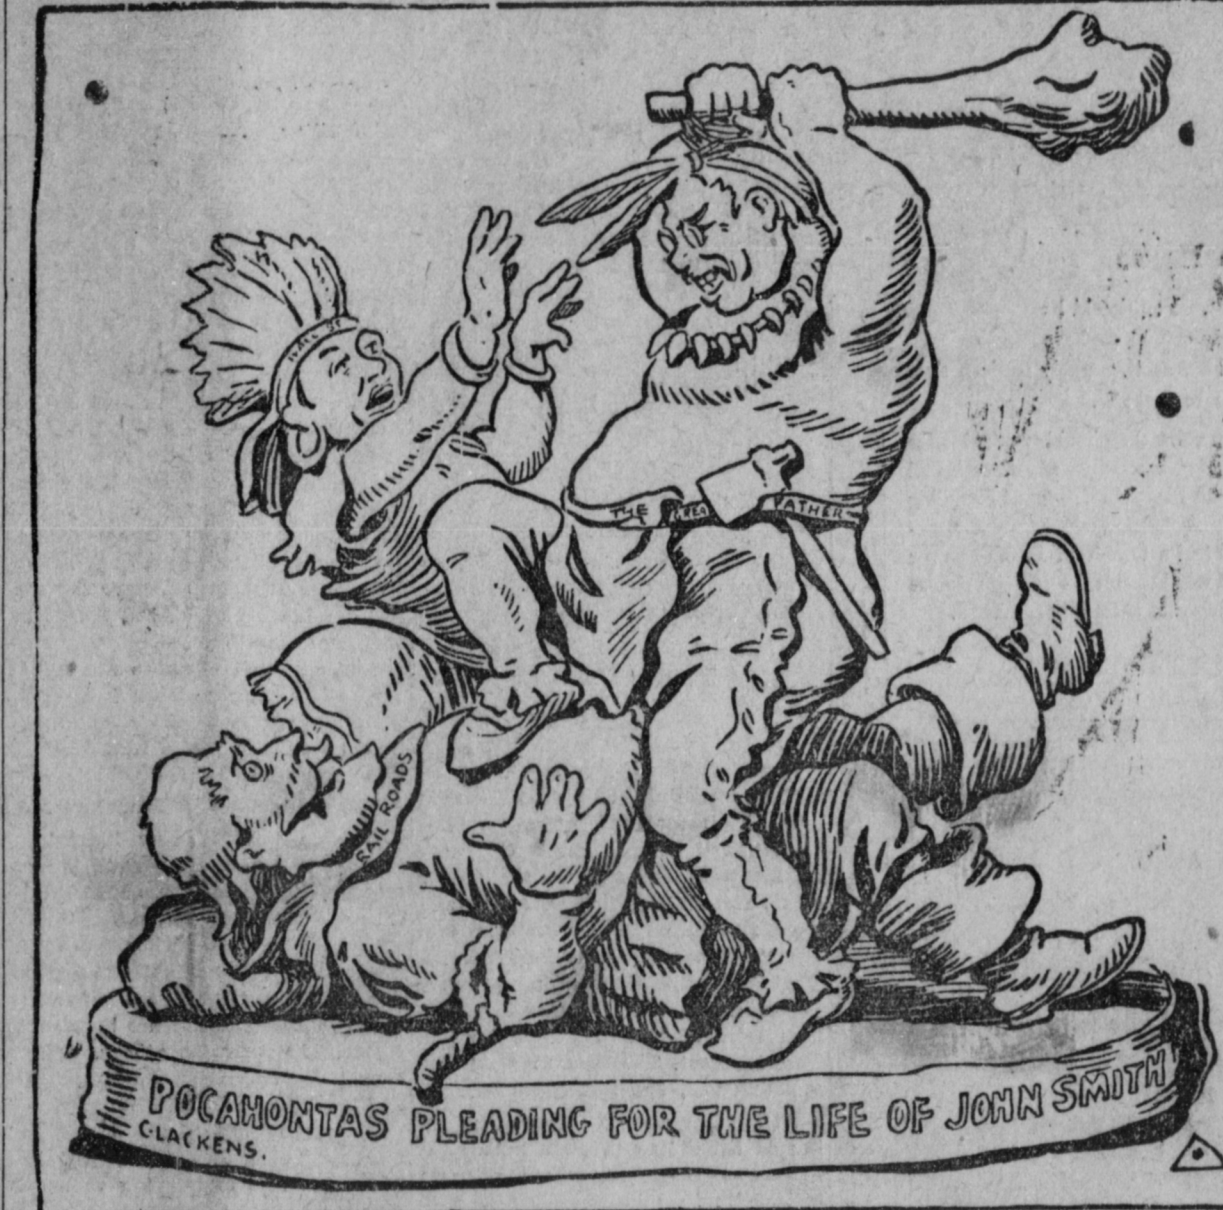

JUST A LITTLE PREMATURE.

Activity among local Democrats in fixing up a slate to be elected by the general council next December, seems to ignore the fact that, whether or not the general council is Democratic in December depends on the outcome of the general election in November. The present Democratic majority is one. Councilman Eugene Tuttle, of the Fifth ward, was appointed to fill a vacancy until a successor could be elected, and the same applies in the case of Alderman F. B. Smith. Their successors, elected in November will assume their seats immediately, instead of in January. Should the Republicans be successful, they will have a majority of one on joint ballot.

Mayor Yeiser Will Flee Before Deluge of Republican Votes

No one ever questioned the loyalty of Mayor Yeiser's Democracy, but few people credited him with a feeling so intense, as to induce him to dispose of his home in Paducah and fly before the gathering storm of Republican votes. Mayor Yeiser has been spending his summers at the home of his brother-in-law, Captain Brown, on the hill beyond Wallace park, and his winters in Paducah. Mayor Yeiser's term of office expires January 1, and it has been known that the mayor was greatly concerned about the politics of his successor. So great was his concern, that he threw aside his wonted indifference

First National Prepared to Move Temporarily to 113 North Third While its New Home is Being Built

THIRD STREET AND BROADWAY.

As exclusively forecasted in The Sun, the directors of the First National bank, at a special meeting called for that purpose yesterday afternoon passed a resolution awarding the contract for the construction of its proposed 10-story Third street and Broadway building, to the Southern Construction company, of St. Louis, the lowest bidder. The bid was \$123,500.

Work on the structure will be started at once, and it is hoped will be completed within nine or ten months. The bank has rented the building at 113 North Third street, from the George O. Hart Hardware company, for temporary quarters, and will remove the bank fixtures from the present quarters at once. Contractor Welkel will build a temporary vault in the Hart building, the contract having been awarded today.

The building will be the first skyscraper in western Kentucky, and will be built on the most modern and approved plans.

Chicago, May 9.—Fifteen or more people were injured, some seriously, today when a Chicago, Burlington & Quincy train, heavily laden with city bound passengers, jumped the track at Millard avenue. The engine was running at a high rate of speed and struck an obstruction.

OHIO TO DECLARE FOR FAVORITE SON

Cincinnati Organization Will Support Taft For President and Foraker For Senator-- Settles That State

ALL IS HARMONY ONCE MORE

Cincinnati, May 9.—Taft for president, Foraker for United States senator, A. L. Harris for governor, is the program advised by George B. Cox, former Republican leader of Hamilton county, in an interview this morning. He advocates this in the interest of party harmony.

When the attention of Foraker was called to Cox's statement he said:

"I have just read what Mr. Cox said. If I understand him correctly he makes a specific recommendation to the Republicans of Ohio, as to what their action shall be in the convention of next year. I am not sure that it calls for any response from me inasmuch as you seem to think it does, I will repeat that I don't want any political honors at the hands of the Republicans of Ohio except with their hearty endorsement. Therefore if what Cox suggests and recommends should meet with their approval no one will support Secretary Taft more cordially, than I shall."

BOTH PARKS WILL BE HURRIED UP

The board of park commissioners met yesterday afternoon to consider matters in connection with the work being done on Lang park and to consider plans for the proposed park at Tenth street and Broadway. Work on Lang park has been retarded by the delay in getting sufficient dirt to properly grade the park, due to the inclement weather, and the commissioners expect, as soon as good weather sets in, to rush the work to completion. The work on the park at Tenth street and Broadway will be delayed until after the paving of Broadway, to Eleventh street, is done, but the park commissioners plan to have both parks completed this summer.

Mayor Yeiser sold his home, 226 North Fourth street, to H. Gockel; but says he will live in the city next winter, probably building.

LOAN COMPANIES BOTHERING CITY

License Ordinance Does Not Cover Their Case

When It Was Raised They Changed Method of Doing Business and Went Ahead.

NO SOLUTION TO SITUATION

City Treasurer Dorian, City Solicitor James Campbell, Jr., and License Inspector George Lehnhard are a triumvirate of city officials vitally interested in the single evasion of the license ordinance that is testing their ingenuity to overcome. Treasurer Dorian is interested because the evasion affects the city purse; City Solicitor Campbell is interested because the evasion presents a shrewd legal problem, and Inspector Lehnhard is interested because he has done his duty in collecting the license with the single exception. The cause of all this worry is the failure of the loan companies in the city to pay the license.

Along with the high license provided for bucket shops, the license committee in drawing up the new ordinance last year, placed a license of \$500 against loan companies. This just doubled the former license and the loan companies promptly balked. Their attitude now is something like "If you don't like it you can lump it." They said they wouldn't pay it and they haven't. There are some five of these loan companies in the city and they are flourishing. The general council thought loan companies were in the class with bucket shops and the license was made so high for the purpose of exterminating rather than for revenue.

The inability of the city to collect the license resides in the ability of the loan companies to re-arrange their business so that the ordinance could not cover their cases, which seems exhaustless. The ordinance says that companies, persons or corporations doing a money lending business on chattels, shall pay a license of \$500. This covered the case at the time the ordinance was passed, but the loan companies have found a way to evade the provision. They simply do not lend money on security at all. The principle of the loan companies is the same though the form is slightly different among them.

How can they afford to lend money without security? A reporter for The Sun talking with three of the managers of loan companies and found them readily discussing their position.

"We lose money occasionally," said one manager, "but we know nearly everybody in the city who borrows money and we know how far to trust them. Most of our loans are small and it is true that we get a large per cent interest, but where else could they get the accommodation which we give them? The banks won't lend money in those amounts. Our patrons need the money and the loan companies are the natural result. We are willing to pay a reasonable license."

"We have our loans arranged so that neither the borrowers could fail to fulfill their contract, nor the city legal department interfere. Authorities have persecuted loan companies in other cities but they still do business and we will be doing business here in spite of the high license. Then the state comes along and asks a license. We paid both as long as they were reasonable, but not now."

Meanwhile the city is losing a possible \$2,000 from the five companies under the ordinance, and the legal department does not think that the companies can be reached as the ordinance now reads. And the lack of stability of form of the companies would make it difficult to frame an ordinance that would cover them. Inspector Lehnhard is philosophical; Treasurer Dorian is waiting, and Solicitor Campbell is thinking hard.

Paris, May 9.—Kurino, the Japanese minister, in an interview today, is quoted as making the important statement that the series of treaties between Great Britain, France, Russia and Japan, guaranteeing the territorial status quo in the far east, implied an agreement to prevent other countries from acquiring territory there.

SECOND WARRANT FOR W. M. MITCHELL

Mayor Yeiser Protests When He is Dismissed for Sunday Selling in the Police Court This Morning

WILL PLEAD HIS ACQUITTAL.

"By the eternal! I won't stand for this," vehemently declared Mayor Yeiser this morning, when W. M. Mitchell, saloonkeeper at 1000 North Tenth street, was dismissed in police court on the charge of Sunday selling.

The outburst from the mayor brought the statement from City Attorney Thomas Harrison, that he would attend to the case, and Mr. Harrison swore out another warrant charging "selling and delivering."

The case hinged on the testimony of the defendant and Lottie Jacobs, who keeps house three doors from the saloon, that Lottie purchased the beer Saturday night and paid for it, and that as she had no ice, Mitchell graciously kept it until she wanted it.

The original charge was preferred by Patrolmen Rogers and Hill, who saw Mitchell carry a basket from his saloon to Lottie Jacobs' house Sunday night. They entered the house and satisfied themselves that the basket contained beer.

On the statement of the principal witnesses Judge Cross dismissed the defendant.

The patrolmen threatened to take the case before the grand jury and Mayor Yeiser said he would employ a lawyer to prosecute the case if necessary.

It is understood a plea of acquittal will be entered.

LEAVES HIS WIFE AND LITTLE ONES

Leaving his wife and three children, the oldest of whom is seven years old, Charles Anglin, 626 South Sixth street, a street exhorter and house painter, disappeared last Friday after completing a contract, which he and his partner, named Ralph entered on together. Ralph says Anglin drew the money for the work and got a new suit of clothes. That is as far as his knowledge extends. Mrs. Anglin has appealed to the police and Charity club.

What Bread is Made Of.

The school mistress had been attempting in vain by means of a lengthy lecture to make her scholars grasp the names of the various ingredients that go toward the making of a loaf of bread.

At length she sent one of the children to the village baker to fetch a loaf and on its arrival she held it up and began once more to describe its manufacture.

Then, after half an hour's earnest talk, she ventured to question them

on the subject.

"Charley," she said to the boy nearest her, "tell me what bread is made of."

The boy instantly obliged.

"Please, miss," he answered eagerly, "holes and crumbs."

CARS RUN

RIOTING IN SAN FRANCISCO ENDS FOR A TIME.

Police Manifested a Disposition Yesterday To Enforce the Laws Vigorously.

San Francisco, May 9.—Late yesterday afternoon two cars manned by strike breakers left the car barn at Oak and Broderick streets, going west toward the Ocean beach. The cars finished the trips at 4:40 and were run into the barns. The trip was made without much difficulty.

At one point a man in a buggy pulled a pistol, but a dozen policemen were after him before he had time to shoot. The man dropped the gun and ran, but was captured.

At another place a carpenter working on a building threw a hatchet at one of the cars. He was a prisoner in less than a minute.

A telephone lineman driving a wagon blocked the cars and tried to hit a mounted policeman with a pair of heavy pliers. He was clubbed into submission and arrested.

The temper of the police was radically different from that of yesterday. Today they showed a disposition to watch the cars and prevent the union sympathizers from throwing missiles. Each car was manned by half a dozen men, none of whom were armed.

O'BRIEN RUNS

TRIES UNFAIR TACTICS AND IS BEATEN IN 20 TAME ROUNDS.

Crowd Jeers Philadelphia, Erstwhile Champion, and All Bets Are Off.

Los Angeles, Cal., May 9.—Tommy Burns of Los Angeles, won the heavyweight championship of the world from "Philadelphia Jack" O'Brien last night after 20 rounds of fighting that was for the most part a foot race.

O'Brien ran away from Burns from the first round to the finish and only occasionally was the latter able to overtake him. Then O'Brien invariably clinched with Burns and held on until the referee pried them apart.

The crowd hooted and jeered O'Brien as he raced about the ring. But very few blows of any vigor were landed by either man and neither suffered any apparent damage. Both of O'Brien's eyes were damaged and his lips cut open, but Burns had scarcely a scratch.

Burns chased his man around the ring, O'Brien running as if in terror of his antagonist. Now and then Burns would overtake him and beat him in the back.

O'Brien Gets in Few Taps.

O'Brien landed many light blows at long range on Burns' head and face, during his capers about the enclosure, but they were absolutely without effect. Clinches were frequent. The referee had the greatest difficulty in prying them apart, or rather, prying O'Brien loose from Burns. The referee cautioned O'Brien repeatedly about his holding tactics and finally told him he must stop it.

Jack occasionally attempted unfair tactics by holding Burns' head under his arm and trying to use his elbow.

The twentieth and final round was as tame as the others.

Before the beginning of the fight, the referee declared all bets off under instructions from Manager Carey of the Athletic club. The referee said he was unable to give reasons for this action.

Where Amber Is Found.

(From Maxwell's Tallyman.) Santo Domingo is one of the few places in the world where amber occurs in any quantity. The bulk of the supply comes from the vicinity of Konigsberg, on the Baltic sea coast. There it occurs in the lower oligocene, and appears to have deposited originally in glauconitic beds of clay, which was afterwards eroded by wave action and the amber distributed, though much of it is taken from beds in which it was originally deposited. What This Signature Means

The signature of W. K. Kellogg on a package means more to you than you would imagine.

It means delicious flavor.

It means the crispest, tenderest breakfast food you ever ate.

It means the original—the genuine Toasted Corn Flakes.

Ten years were spent in perfecting this most delicious of all breakfast foods.

It was placed on the market a little more than a year ago.

But its success is phenomenal, because the flavor is just the kind that pleases everyone—that no one ever grows tired of.

Now the imitators claim to have equalled in a few months what it has taken us years to perfect.

Common sense says, "Impossible." For the flavoring process is secret. It cannot be reproduced.

So, when you buy "corn flakes," be sure and look for the above signature on the package. Else you may unknowingly accept one of the many worthless imitations.

HUMORS IN THE BLOOD

Coming of Warm Weather Forces Them Out, Causing Itching, Burning Skin Eruptions.

The blood and skin are so closely connected that whatever affects the one has a corresponding effect on the other. When the blood is pure and healthy the skin will be soft, smooth, and free from all eruptions; but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease.

The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable, otherwise it would become hard and dry from constant exposure to wind and sun. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry scaly skin eruptions as Tetter, Psoriasis and kindred troubles.

These humors find their way into the blood through a disordered or deranged condition of the system. There is a certain amount of waste or refuse matter collected in the body every day. This is useless in nourishing or keeping the system in health, and nature intends that it shall find an outlet through the channels of bodily waste. As long as these members perform their duties properly the blood remains pure and free from infection; but when from any cause they become dull and sluggish, this refuse matter is left to sour and be taken into the blood in the form of humors and poisons. The skin is a perfect index to the blood; when we see one afflicted with a skin disease, or pimples, rashes, eruptions, blotches, etc., constantly appearing, we know that down deep in the blood a humor has taken root, and instead of supplying nourishment and strength to the fine, delicate tissues of the skin, it is pouring out its acid and unhealthy accumulations.

The skin is not only affected by the humors generated within the system, but poisons from without, such as Poison Oak and Ivy, Nettle Rash, etc., as well as poisons from metals, acids, etc., enter through the open pores and glands, and so thoroughly do they take root in the blood that they are ever present, or return from year to year to annoy the sufferer.

The treatment of skin diseases with salves, washes, lotions, etc., is along the wrong line. True such treatment relieves some of the itching and discomfort, and aids in keeping the skin clean, but it does not reach the real cause of the trouble, and at best such things are only palliative and soothing.

A thorough cleansing of the blood is the only cure for humors in the blood. S. S. S., a gentle acting, safe blood purifier, made entirely of vegetable ingredients from nature's forests and fields, is the proper treatment. S. S. S. goes down into the circulation and neutralizes the acids and humors, thoroughly cleansing and purifying the blood, and curing skin diseases and affections of every kind. It supplies to the

blood the fresh, nutritive qualities necessary to sustain the skin and all other parts of the body, and rids the blood of any and all poisons. S. S. S. cures Eczema, Tetter, Acne, Psoriasis, Salt Rheum, Poison Oak and Ivy, Nettle Rash and all troubles of the skin. SENATE CONCURS IN LOCAL OPTION

Illinois Measure Will Soon Go to Governor

Anti-Saloon League Expects to Close 1,500 Saloons Outside Large Cities.

SOME OF ITS LIVE FEATURES.

Springfield, Ill., May 9.—When the senate met the local option bill, which the house in passing had amended, was reported in for action. Senator Berry, who had introduced it, explained that the amendments which the house had tacked to it were merely for the purpose of a better definition of some of the terms used, such as township and precinct.

After his explanation the senate immediately voted to concur in the amendments, and the bill, as soon as engrossed, will be laid before the governor for his signature, thus putting an end, temporarily at least, to the political issue which has caused more and more trouble in each succeeding session of the legislature, and which was destined to cause still more if it had not been settled.

The act, as it will become a law July 1, does not represent the extreme hopes of the temperance people, who desired an enactment which would permit the people of counties as well as townships to vote on the saloon question, and which would give the same privilege to precincts and wards in cities and towns. This act will permit the people of townships, cities, towns, and villages, and in counties not under township organization, to vote whether or not they want saloons.

With it the officials of the Anti-Saloon league have said it will be possible to close at least 1,500 saloons.

Will Not Affect Chicago.

Inasmuch as the ward and precinct clauses of the bill were stricken out when Senator Berry framed the compromise measure which has been passed, the bill will not affect Chicago. Because of the fact that the county feature also was stricken out, it will have little or no effect on many of the larger cities of the state, unless these cities by their own vote decide to abolish saloons.

Where township lines are so laid that the votes of the people in the country can affect the vote of a part of the city, or where the township overshadows the incorporated town, then the votes of the people outside the corporate limits will have weight in deciding and may decide whether or not that town shall have saloons.

In brief, the act provides that one-fourth of the legal voters of any township, city, incorporated town or village, may petition for the submission of the saloon question. This vote becomes operative within thirty days after it has been had. Provisions are made for safeguarding the signatures of a petition for submission of the question.

If the voters of the locality vote against saloons, the dram shops go out of business, are paid a rebate to cover the value of their unexpired license, and the question of having saloons may not be submitted again for eighteen months.

Selling liquor in anti-saloon territory is made punishable by a fine of from \$20 to \$100 or imprisonment for thirty days for the first offense, and a second offense carries a jail sentence with a larger fine.

His Good Time.

Recently a Washingtonian, in conversation with "Ollie" James, the gigantic and genial congressman from Kentucky, made certain inquiries with reference to a mutual friend whom he had not seen for a number of years—a Colonel P., of the state mentioned.

"And how does my old friend, the Colonel, spend his declining years?" asked the Washingtonian.

"Beautifully, sir, beautifully," answered James. "He has a fine farm, sir. And a string of trotters, sir. And a barrel of whisky sixteen years old, and a wife of the same age, sir."

OVERCOAT INCIDENT BEING INVESTIGATED.

Washington, D. C., May 9.—Mrs. Elizabeth Fairfax Ayres, wife of Lieut. Col. Charles G. Ayres, of the Eighth cavalry, has precipitated an investigation of the action of Col. Robert Lee Howze, commandant of cadets at West Point, in forbidding young women who visited the academy on Easter Sunday to wear cadet overcoats. Col. Stephen C. Mills, of the inspector general's department, is conducting the investigation in accordance with orders given by secretary Taft.

Mrs. Ayres is said to be mixed up in the affair through criticisms made of Col. Howze in letters she addressed to the president, Gen. J. Franklin Bell, chief of staff, and other high officials of the war department. She is a "Fairfax of Virginia" and has a son in the cadet corps of the academy. Her daughter was present at dress parade on Easter Sunday, when the now historic "cadet overcoat" incident took place.

The weather on that day was raw and blustery, and some of the gallant young soldiers persuaded their girl friends to don their overcoats during the party. Col. Howze observed this infraction of military discipline and called attention to the regulations of the academy which prohibit cadets from loaning their coats or any other portions of their uniforms at any time or under any circumstances. In addition he ordered one of the police sergeants of the academy to request the young women to remove the coats forthwith. The order was obeyed, but not without resentment from the cadets as well as from the young women.

It will be impossible for any action to be taken in the case of Mrs. Ayres should Col. Mills uphold the course of Col. Howze, but the incident is likely in this case to be embarrassing for her husband. Lieut. Col. Ayres is now on his way from the Philippines to the United States.

One Dead, Six Missing and Fifteen Injured Is Record of a Downtown Fire.

Kansas City, May 9.—One dead, six missing, 15 injured, and a property loss of a quarter million of dollars, are the results of a fire which destroyed the University building last evening. The building was occupied by Montgomery Ward & company as offices and by numerous artists and musicians who lost every-

thing.

George De Mare, aged 32, an art instructor, is known to be dead.

Among the missing is Miss Maud Witteborne, a piano teacher, last seen at the window of her studio on the fifth floor.

The injured are: Miss Alexandra Blumberg, a Russian countess, may die; Maude Speyer, Mrs. Eva S. Boyle, Sheridan, Mo.; J. M. Kranichfield, a fireman; William Van Dusen, a fireman; Peter Karagaard, a violin teacher.

The Barlow Knife.

For, with all due respect to the great century dictionary, I must say it does not satisfy me when it deals with knives. Now, I appeal to my readers who were boys, well, some years ago—about the time I was of that age—when in fact a knife meant more to them than all the problems

of life. Did they know in those days the Barlow—the Billy Barlow knife? Why, I came across some Barlows last summer. I had not seen any for years, and I laid in a supply at once. And yet, when I came to look up the origin of the Barlow knife, the Century gave me absolutely no help. Maybe some reader can, though, for the letters have begun to come to the Week-end column. Well, if such reader can give me some account of "The Origin of Species," so far as the Barlow goes, I in turn will gladden many an "old boy" heart by telling him about the genesis of that Barlow knife he prized years ago.—Pittsburg Dispatch.

Daily Thought.

Let me live grandly, seek the things that last.
And when earth's past;
Stand—a crowned soul!
And give thee back thy years, well lived
For man and God.

—Henry Hallam Tweedy.

"OLD WOMAN'S" DARLING.

"Old man's" darling as a term of contempt, must give way to the "old woman's" darling of the later development in speculative matrimony. We have for example young Mizner, who married the widow of the California multi-millionaire, and who now seeks a divorce in order to marry a "pretty blonde." He is like the gambler, who wins a pot with stacked cards, and then goes against a faro lay-out. Mrs. Mizner may live to see the "pretty blonde" revenge the outrages she has suffered.

Young Carey, an actor, weds dear old "Ellen Terry? There are prospects of ultimate good in the "Old Woman's" darling idea that were utterly lacking in the older form of marrying for money. Then it was that parents gave their daughters in marriage to decrepit bachelors or widowers, with a "pile," figuring that a few years of bondage would be fully repaid the young thing by the dower which would eventually be hers.

The "Old Woman's" darling idea offers opportunity for the endowment of brains. The young scientist, the young professional man or scholar, lacking means but possessing certain charms and social graces may win a wife, who figures low in the mortality tables and high in the bank books. Thus, possibly a fortune wrung from the rock-ribbed hills or by delving deep in the pockets of the public, may be turned to account in the amelioration of the human race.

So far, of course, the beneficiaries of the matrimonial institution have possessed only the social graces, and have lacked the scientific inclination; but let us hope on and on, and perhaps this suggestion may strike the eye of some aspiring, but despondent student, and set him on the right road to fame if he will but put away his microscope and butterfly net, and don a tuxedo. After all the romance and adventures of fortune seeking in modern times are no less entertaining now than in ages past. The field of operations are different, that is all. And who can say that the bowels of the earth contain any more horrors than the bosoms of some families.

ANARCHY.

Investigation reveals the fact that a large majority of the educated people of northern Europe, who come to America are "theoretical anarchists." They do not believe in violence; they probably would support the government in case their services were needed to preserve it; but they look on government, at best, as a

necessary evil, which curtails the natural liberties and rights of man, and they argue that all restraint is inherently wrong.

Cardinal Gibbons, in his speech at New Orleans recently, gave us some startling examples of "practical anarchists" who have the good, old Anglo-Saxon love of law and order implanted in their hearts, but who ingeniously manage to differentiate between their private affairs and their public duties, when he said:

"There is for instance, the anarchy of the socialism expressed when it would make society headless, dispersing all authority among its members, vainly hoping in its dispersion that the million units that go to make up society, each one different in his habits, ambitions and talents, would somehow coalesce and achieve their destiny automatically.

"You have anarchy of wealth, which by its combinations and illegal exploitations would seek to make all things subject to its power; regarding honor virtue and humanity itself as mere chattels, which it may purchase and its owners destroy.

"We have anarchy of power, which men will seek to purchase and attain a place which God or nature or man never intended they should, and which, commonly obtained they make an opportunity for oppression and dishonesty.

"We have anarchy in the moral order, when men will seek immunity from punishment justly due to crimes committed by an appeal to mankind sentiment, which neither law of nations nor the unchanging law of God can justify.

"We have anarchy in the religious sense, when within the walls of Christendom, though Christ has given in its completion a revelation and a definite exposition of the same, yet men and women, too, will essay to preach the hallucinations of their own diseased minds, believing their ravings to be revelations and their uncanny doctrines the outcome of divine inspiration."

The school board has made a good selection in the site for the new south side school house. Careful study of the population to be reached by the school has demonstrated to the trustees that they have placed the building as near the center as practicable. They were in danger at one time of bunching the school houses. It is apparent that in making this selection the trustee were guided by nothing except the principle of doing what is best for the interests of the schools.

REFLECTIONS OF A BACHELOR.

Some men expect you to do a favor for them as if they were doing it for you.

A man makes as much fuss over doing his duty as a boy over getting a tooth pulled.

A woman feels she isn't loyal to her husband unless she sibs about all the money he makes.

It's hard for a girl to take as much interest in your love-making if she suspects you mean it.

You can generally figure out somehow what a man means by what he says unless he is running for office.—New York Press.

IN THE SPRINGTIME.

This following simple prescription, which anyone can prepare at home, is said to restore the Kidneys to perfect health, forcing them to filter all poisons and acids from the blood, overcoming Rheumatism, even in its worst form.

Any good druggist can supply these ingredients: Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Shake these well in a bottle, and take a teaspoonful dose after each meal and at bedtime.

Your physician will tell you there is no better or safer mixture known to cleanse the blood and build it up, which everyone should do at this time of year. Readers of this paper can make no mistake by following this simple though valuable advice.

No Official Word Received Concerning Change in Local Shops— Railroad Gossip.

Neither Master Mechanic R. J. Turnbull nor General Foreman R. E. Fulmer are in the city today and no word as to the probable successor of Mr. Fulmer could be gotten. However considerable discussion was among the employees as to whom the place would be given. Many are of the opinion Mr. Joe Walker, at present the general foreman of the Princeton shops, on the Tennessee division, will be given the vacancy here. Mr. Walker is a Paducah boy and a rising young man in railroad circles.

Moving Paint Shop.

Today the paint shop at the Illinois Central railroad is being raised and placed on rollers, in preparation to moving it about 50 or 60 feet from its present location at the north end of the car shops. Should a fire start from some of the combustible oils the car shop and other buildings would be in immediate danger, and to avert anything of this character the officials decided to move it. The work will require several days and when the new location is reached a concrete floor will have to be laid.

Railroad Gossip.

Vacancies in the different departments of the shops of the Illinois Central railroad are being filled. Yesterday a half a dozen of men were put on the pay roll. These new men fill vacancies caused by the resigning of old employees the past several weeks.

Mr. A. F. Blaess, roadmaster of the Louisville division, on the Illinois Central railroad, is in the city today on his regular trip.

Former Naval Inspector Testifies at Trial of Men Charged.

Pittsburg, Pa., May 9.—The trial of J. Jay Dunn, superintendent of the Greenville (Pa.) mill of the Shelby Steel Tube company, and Charles L. Close, assistant superintendent charged with conspiracy to defraud the government by the alleged installation of defective boiler tubes on many United States battleships and cruisers, was continued today. T. Burd Zell, formerly a United States naval inspector, said he knew Dunn and Close, the defendants, and also Frank L. Emmett, foreman of the tube mills, under indictment on the same charge, who yesterday pleaded guilty. Zell testified that his predecessor, H. W. Foster, had left government stamps in his desk at Greenville, and that Emmett had broken open the desk and taken out the stamps, which were later fastened to defective tubes and shipped for government use.

The fight was the culmination of troubles between Grimsley and Corey, farmers, over a land deal.

Mount Aetna Is Awakening. Messina, Sicily, May 9.—The Stromboli volcano has been intermittently active since April 28. ARE YOU HALF SICK?

A Great Number of People Are, At This Season of the Year.

Weather conditions not alone affect business they affect the health of the average person. Take a long siege of inclement weather like we are having and you find a host of half sick people.

Spring days are the days of half sick people—people just sick enough to have little interest in anything, but, not ill enough to go to bed. Such a condition calls for attention immediately, or serious results may follow. The liver, stomach, bowels, kidney or blood may not be performing their function properly, just a trifle in disorder, and once corrected you are yourself again.

Osteopathy goes right to the seat of any disorders of this nature, and cures them.

Osteopathy is the one natural treatment in all conditions of stomach, liver, bowel, kidney, skin and blood disorders. Without the use of any medicines with proper diet, with the dry hot air treatment, where indicated the osteopathic treatment is an assured and permanent cure.

I should like to talk to you at any time about the treatment for yourself, or any member of your family, and the best testimonials I can offer you of the treatment are the commendations of Paducah people whom you know well, who have taken the treatment.

"The Traveling Man" Will Be a Social Event.

There will be a full dress rehearsal of the cast of "The Traveling Man" this evening at the Kentucky theater, and all the final touches will be put on. It promises to be one of the most successful and delightful amateur performances given in Paducah, and has absorbed social interest to the exclusion of all else for some weeks. Boyle Woolfolk, the author and composer, has done some of his cleverest work in "The Traveling Man". He is a young Kentuckian already on Fame's highroad, and his family is enough identified with Paducah to

make her feel a kindred beyond that of state pride. He is a grandson of Mrs. Amanda Woolfolk, of Louisville, who at one time made her home in Paducah, and is extensively related here. The cast of "The Traveling Man" is a well-selected one. There is every prospect that capacity house and numerous box parties will make it a distinct social event.

MUNICIPAL PLANTS ALMOST BANKRUPT TOWN

Bluffton, Ind., May 9.—The municipal asphalt and lighting plants of this city have proved so expensive an experiment that there is no money in the general fund of the treasury and the council has ordered retrenchment in every branch of the city government with the hope of warding off municipal ruin. Three years ago the city built an asphalt repair plant of its own, issuing bonds for \$22,000 for the purpose. This proved too costly and the bonds have not been paid, nor has the plant earned even the interest on the money invested. The electric lighting plant has been no better investment. It is believed that the only way in which the city can recover its lost ground is to dispose of its municipal plants and use the money for paying off its bonded indebtedness.

UPHOLDS MARGIN CUSTOM.

Man Who Tries to Escape by Gambling Plea Loses Case.

Chicago, May 9.—Judge Dupuy, of the superior court, today upheld the custom of brokers on the board of trade and the stock exchange in closing out trades when additional margins are demanded and refused. The decision was given in a suit brought by Waldo P. Johnson to recover stocks from the firm of Milmaine, Bodman & Co., which had been held by the firm. Restitution was claimed on the ground that the transactions were gambling. The court held otherwise, and decreed that the defendant was entirely in the right in closing out transactions when the customer declined to respond to the call for margins.

Austin, Texas, May 9.—The senate today refused to take up the 2-cent passenger fare bill for consideration. November, 1905—Harry Neville, "lancey circle" man, poisoned, Goldfield, Nev.

December 30, 1905—Murder of former Governor Steunenberg, of Idaho.

Boise, Idaho, May 9.—By overruling the motion of the defense for a bill of particulars, setting forth what overt acts, if any, there were to connect the accused with the murder of former Governor Steunenberg, Judge Wood cleared the way for the trial of William D. Haywood, secretary of the Western Federation of Miners, which will begin today. Wood held that the request of Haywood's counsel for a more explicit statement of the charges against the prisoners came too late, regardless of whether or not it might have been entertained at an earlier stage of the proceedings.

Haywood is the first of the four men accused of complicity in the Steunenberg murder to be selected for trial. The others, Moyer, Pettibone and Orchard, the last of whom is said to have made a confession, will be tried as circumstances dictate, following the conclusion of the proceedings against Haywood.

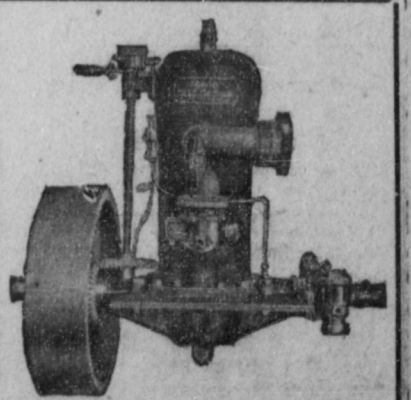

The Attitude.

The prosecution claims it will prove beyond the shadow of a doubt the guilt of the leaders of the Western Federation of Miners, known as the "inner circle" of crimes extending over a period of five years and including arson, train wrecking and murder.

The miners on the other hand declare the prosecution is only an attempt to break up their organization and that the detectives have manufactured the evidence against their men. They say they will spend a million dollars if necessary and will carry the case to the United States supreme court in order to prove their innocence. It is estimated that \$100,000 already has been spent in preparing for the defense.

The Crime.

The assassination of ex-Governor Steunenberg occurred on the night of December 30, 1905. The alleged motive for the crime was revenge for the firm attitude Governor Steunenberg had taken to suppress the riots and

SURPRISE IN FIRST DAYS OF SALE.

Astonishing Demand for Root Juice.

The sale is now on at Alvey & List's drug store. The Root Juice people are being kept busy answering questions. Many anxious people that have heard of some great cure the discovery has made are eager to try it. The Root Juice people are making many friends by patiently answering questions and attending to the people's wants in a courteous manner. The reports from druggists from most of the cities of Indiana in relation to the great merit of Root Juice can no longer be doubted here in Paducah. Cassell Bros., of Anderson, said: They had never seen anything like it, and that the amount of catarrh, stomach troubles, rheumatism and kidney affections Root Juice has cured at that point within the last six months is phenomenal. When the Root Juice people were persuaded to come to Paducah they consented to remain but a few days. They are now at Alvey & List's drug store and are pleased to give a free dose of the great remedy to all that call. It is sold for \$1 a bottle, three for \$2.50.

outrages during the miners' strike in the Couer d'Alene district. The calling out of the militia and other drastic measures employed by the authorities had resulted in a victory for the mine owners and the miners were forced to admit defeat.

Governor Steunenberg was blamed by the miners for their defeat. Threats were hurled at him at all the miners' meetings, and he was frequently warned by his friends that his life was in danger. After finishing his second term the governor retired from office, and returned to live at his home in Caldwell. Several years passed and the Couer d'Alene troubles apparently were forgotten. Then came the shocking news that Governor Steunenberg had been assassinated—literally blown to pieces by an infernal machine as he was entering the yard of his home.

Immediate steps were taken to catch the assassin or assassins. Rewards, public and private, aggregating thousands of dollars were offered. Suspicion pointed to a man who had been in the town for some weeks and who was known as Harry Orchard. He was arrested and incriminating evidence against him was found in his room. Orchard, it was ascertained, belonged to the Western Federation of Miners, and had been implicated in several disturbances and in a train wreck in Colorado.

Finally James McFarland, a Pinkerton detective, who had broken up the Molly Maguires in Pennsylvania, was called in. After several weeks of careful work the methods of the master detective prevailed and Orchard broke down and confessed. In his confession Orchard directly charged President Moyer, Secretary Haywood and G. A. Pettibone of the Western Federation of Miners of having plotted Steunenberg's murder and with having furnished the money needed.

Not in many months has the wharf boat been as busy as it was yesterday. Six packets from every point in the compass were at the wharf at the same time and business was heavy with all of them. Today fewer arrivals made business slower but it is still good. The river is filled with driftwood indicating that the country creeks have been flushed by the rains and the rise here in 24 hours was 1.2, bringing the stage up to 28.5. Same date last year the stage was 15.5. Rain fall since yesterday was .80 inches.

Captain Mike Williams, superintendent of the Ways, returned from Louisville last night and will go to Memphis this evening. Captain Williams only recently returned from New Orleans and the result of his trips may be many big boats brought here for repairs this summer. At this time in the year all the packet lines are figuring on repairs and the lowest bidder gets the work. Another job like the Natchez would keep many men employed all summer.

Capt. James Koger, superintendent of the St. Louis and Tennessee River Packet company, has gone to Texas on a two weeks' trip.

"Brown's in Town." Captain Frank Brown, wharfmaster, has

moved into the city from the country.

The handsome sidewheel Louisville arrived this morning at 8 o'clock from Cairo and left after being coaled at the West Kentucky Coal company's docks, for Evansville.

The City of Savannah, which has been laid up in St. Louis for several weeks, will leave that city Friday evening for the Tennessee river arriving here Sunday. The Savannah will run regularly now and the excursion season will be open when school lets out.

The J. S., well known here, will return tomorrow to run an excursion out of Paducah Friday night. The J. S. is a fine boat.

After getting its stern remodeled and other repairs, the Meteor was let off the dry docks and left early this morning for Evansville to do towing work.

The Lydia, a Holcomb-Hayes towboat, left today for the Cumberland river after ties.

With 40 loaded barges of coal, the big Sprague passed down yesterday afternoon for Mississippi river points.

The Georgia Lee arrived from Memphis this afternoon with a good

trip, and left for Cincinnati after a short stay.

The Peters Lee will pass down from Cincinnati for Memphis Saturday.

The Jim Duffey left for the Cumberland river today after ties for the Ayer-Lord Tie company.

If any person in Paducah thinks he has the hardest job in the city let him go to the coal docks and get wisdom. Here boats are coaled by hand, that is, boxes filled with coal are carried by two men, and that would not be so bad but for the high tension at which they work. Stimulated by the fact that the only limit to their earnings is the number of boxes they can load and carry, the men work frenziedly, shoveling coal, lifting the two and a half bushels of coal, fairly running to their destination, running back and repeating the process until the foreman calls them off. They are paid so much a box for loading the coal.

The Dick Fowler cleared for Cairo on time this morning with a good trip.

The Martha Hennen left today for the Cumberland river after ties.

Charley Mitchell has taken the

place of Conway Graden who resigned as head mate on the Joe Wheeler.

The Chattanooga met with an accident near Chattanooga this week and is expected to come back here Sunday to go on the ways for repairs. The Avalon will run in the Chattanooga's trade, and later the Avalon will take the Joe Wheeler's place which is considered too small for this trade. The Joe Wheeler will not to the trade above Chattanooga.

The I. N. Hook left for a trip of ties in the Cumberland river today.

The Henrietta left yesterday for the Tennessee river after ties.

Official Forecasts.

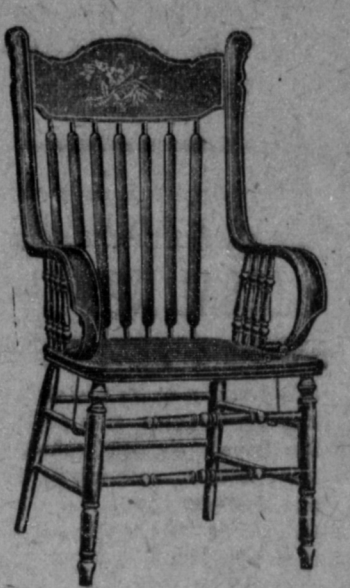

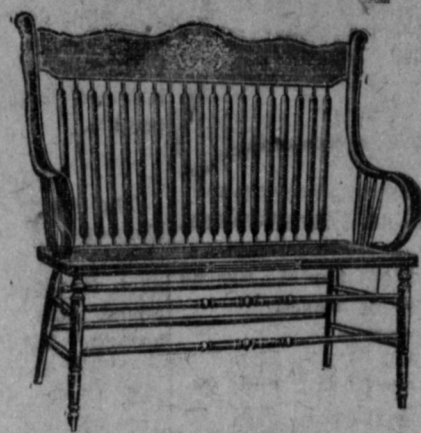

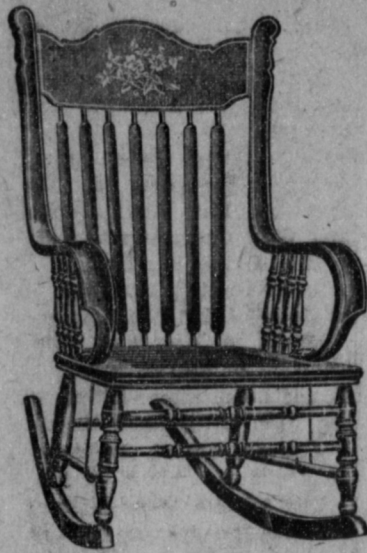

The Ohio at Evansville and Mt. Vernon will rise slowly during the next 24 hours. At Paducah and Cairo, will continue rising during the next three days. For Cairo a stage of between 37 and 38 feet is at present indicated.

The Tennessee from Florence to the mouth will continue rising during the next two days, passing the flood stage at Johnsonville.

The Mississippi, from below St. Louis to Cairo, will rise slowly during the next 24 hours.

Go-Carts \$2.25 to \$45

This season we are showing a beautiful line of large and medium size Go Carts, stationery and adjustable, at prices ranging from \$2.25 to \$45. One of the favorites is the English Go-Cart, finished in weathered and Early English, quartered and polished, upholstered in leather to match and with leather hood. They're beauties and range in price from \$18.00 to \$35.00.

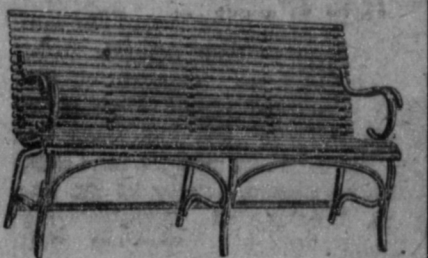

The Allwyn Folding Go-Cart

\$6.00 to \$12.50

The Allwyn Go-Cart may be had only at our store and we say without hesitation that it is the best and most convenient cart on the market today. The leather trimmings are rich and handsome, the enamel is BAKED on—not painted—the frame is of steel, making it strong and durable, yet light. All ornaments are heavily nicked. The cart is capable of three adjustments—upright, reclining and collapsed. One simple movement collapses it and it is then ready to take on street car or train, occupying almost no space. If you are interested in Go-Carts, don't fail to see this one. \$6 to \$12.50.

Settees \$3.50 to \$5.50

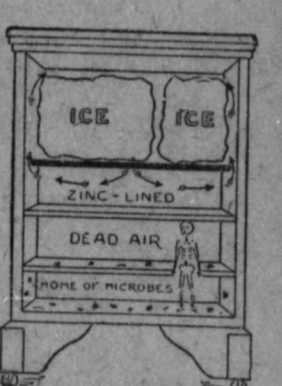

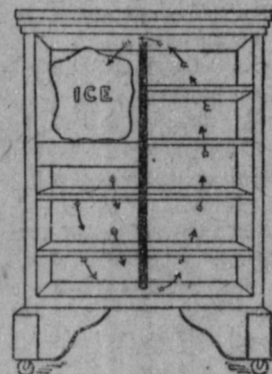

For the lawn, a strong, yet attractive Settee is almost indispensable. The bent wood one, shown in the illustration is a mighty good one, though it only costs \$3.50; you can have it finished in either green, red or golden oak finish and in either four or six foot lengths. Don't put off buying your outdoor furniture until it is really hot, for there will be many an hour in the next few days you would like to spend on the porch.

THE HERRICK FOR THIRTY DAYS FREE

It Will Not Obligate You in Any Way to Buy and Will Demonstrate Its Superiority.

The perfect circulation of cold, dry air in The Herrick Refrigerator is the main point of difference between it and all other refrigerators, though it has many other features which are not found in the old style kind—patented sanitary linings, scientific drainage, air-tight doors. It will only take about ten minutes to show you the value of these points and then, if you like, thirty days use to demonstrate the truth of our statements. If you decide to buy, we will arrange the terms to suit your convenience. If not, just phone us to send after it.

House cleaning days inevitably suggest new Carpets and Rugs and we all ready for the comparisons which you will, of course, make when you buy. We invite comparisons for the unmistakable good taste of our selections and low prices invariably mean quick sales.

MEXICO NOT TO WAR.

With Guatemala Because of Refusal to Surrender Lima.

City of Mexico, May 9.—Mexico will not go to war with Guatemala over the question of the extradition of General Lima, charged with complicity in the assassination of General Barillas, former president of Guatemala, who was killed in the City of Mexico.

FOUR ROOM HOUSE WANTED.
We are trying to satisfy one of our clients with a four room cottage in good neighborhood and within a reasonable distance of I. C. shops. Will pay \$1,000 to \$1,300 cash. Telephone Hollins & Bamberg, Real Estate and Rentals, Truheart Building, Both Phones 127.

—To a great number of people the advertising of some particular stores is like a continued story—and is followed, with few breaks, year after year.

'ust a Few Uses as a Medicine

Very highly recommended for chronic dyspepsia and indigestion, also habitual constipation. For children it will be found useful in colds, hoarseness, and for weak, sickly children it is par excellence as a tonic and flesh builder, toning up the stomach and correcting indigestion and a disposition toward constipation. We can recommend this oil to be absolutely the purest oil on the market. We have it in 35c, 60c and \$1 bottles. Give it a trial and be convinced of its value.

We also have a complete new stock of drugs, chemicals, patent medicines and toilet articles. A full line of Palmer's and Hazell's perfumes and toilet preparations. Prescriptions filled by registered pharmacists only. Free telephone. Delivery to any part of the city.

Just Inside.

"I notice," remarked the frequent guest, "that your plump waitress is no longer here."

"Ah, but you are mistaken, my friend," replied the cannibal chief, as he tasted the stew with peculiar relish.—April Lippincott's.

"Miss Backbay—You are familiar, I presume, with 'Sartor Resartus'?" Mr. Crondolel—Er—only slightly. In our part of the country we don't take much stock in him. They say he sneaks out of paying his election bets.—Chicago Tribune.

GREAT REVIVAL

UNDER WAY AT THIRD STREET
METHODIST CHURCH.

Feature Is Singing Led by Evangelist
L. L. Pickett—Success Crowns
Efforts.

One especial feature of the revival meeting now in progress at the Third Street Methodist church is the singing Evangelist L. L. Pickett, who is conducting the meeting, is known throughout the land by his songs. He is the author of more than 1,000 songs, either words or music. His song books have sold more than 1,000,000 copies. The book he is now using he considers his best. The songs certainly grip the heart and are powerful factors in driving home the telling truth of the sermons. All lovers of music in the city are invited to attend and join in the singing. Many are already doing so among them the double quartet of male singers under the lead of Mr. Hogen. Evangelist Pickett is not only a writer of songs, but he is the author of a number of well known religious books as well, and his sermons are strong and forcible presentations of life truths. He delivered his fourth sermon on "Prayers" last night and made a deep impression. There was a large attendance and the conversion followed the services.

"The prospects are good for a gracious revival with far-reaching influence, I think," said the Rev. P. H. Field, the pastor of the Third Street church, today. "We ask all who love God and good to join us in prayer and an honest effort for a genuine and wide-spread revival of old-time religion."

The services are held at 2:30 and 7:45 p. m. each day. Arrangements will be made for a mass meeting for men only on Sunday afternoon at 2:30 o'clock. Evangelist Pickett's theme at this will be "The Devil's Three Eyes."

—Do you want to sell a house of three or four rooms on payment of \$20 cash and \$20 per month? Our client will pay \$800 to \$1,000. Both Phones 127. H. C. Hollins, Real Estate and Rentals, Trueheart Building.

THEATRICAL NOTES

WALLACE PARK CASINO.

Thursday "La Mascotte"
Friday "Said Pasha"
Saturday, matinee and night
..... "Said Pasha"

"La Mascotte" Proves Popular.

Quite as well rendered and proving itself as popular a summer attraction as was "Fra Diavolo," "La Mascotte" was presented at the Wallace park Casino last night by the Beggar Prince Opera company, and Manager Malone is pleased with the way the season is being inaugurated. All the principals were well cast last night. The characters were: Bettina, Miss Nola; Princess Peamita, Miss Etta Morris; Rocco, Mr. Godding; Lorenzo, Charles Nickles; Pippo, Mr. Lea Velle. The same bill for tonight.

Charley's Aunt.

The revival of "Charley's Aunt" is reported to be proving as great a hit as it was when first produced in this country. Etienne Girardot is again seen as the suppositious aunt and the splendid stage settings provided by the management, contribute much to the production. Mr. Girardot's impersonation of "Charley's Aunt" provokes laughter that is mildly described by the term uproarious. Few actors have shown the ability to enact a feminine role in such a manner as to avoid even the slightest suggestion of vulgarity, yet this is what Mr. Girardot does. "Charley's Aunt" with Mr. Girardot, will undoubtedly be warmly welcomed at The Kentucky Monday night.

REACH HIGHEST POINT

YET ATTAINED BY MAN

Paris, May 9.—Dr. and Mrs. Bullock, the explorers, have arrived here from India. The doctor tells of their recent effort to unveil the mystery of the Himalayas. "We camped," he said, "at the highest altitude attained by man 21,300 feet. This was in the unexplored Minkum range. From our camp on a snow plain surrounded by seven towering peaks, we ascended to a height where I stopped to take photographs as the mist was increasing, while Mrs. Workman climbed to a peak 23,300 feet above the level of the sea.

"Only once was this record broken, when I climbed the Chogo Lungga glacier, 23,394 feet. During the last five days of our climb, the atmosphere was so rare we were unable to sleep.

Taft Wins in Ohio Over Foraker; Cincinnati Organization For Him

Washington D. C., May 9.—The opposition in Ohio to the candidacy of Secretary Taft for the presidency has collapsed. According to private information, believed to be reliable, which reached here this afternoon, the Cox forces will make a public statement in a day or two announcing their acceptance of the secretary of war as Ohio's candidate. A notification to this effect is said to have been given to Senators Foraker and Dick.

The defection of the Cox forces means the defeat of Senators Foraker and Dick. Recently George B. Cox, the Republican boss of Cincinnati, announced that as always he was behind Senator Foraker. But Cox and his lieutenants have been sounding the voters to ascertain their sentiments, and according to information received here today they have concluded it would be foolish to attempt to stem the tide which is running in favor of the secretary.

No Surprise to Secretary.

The friends of Secretary Taft claim they are not surprised at the

good news from Ohio. When the secretary of war was in the Buckeye state a week ago he talked with a number of politicians and got in touch with the people, and he came to the conclusion that his candidacy would receive the endorsement of his home constituency. Of the 21 congressmen in Ohio, 17 have declared they are for Taft, three have not been heard from, and one, who announced his support of Foraker, now is anxious to get in the Taft band wagon. There is not the slightest doubt in the Taft camp that a majority of the Ohio delegates will vote for Taft, and the hope is expressed that before many months elapse a solid delegation can be secured.

If the information received today should be confirmed, it will mean a great step forward in the movement for Secretary Taft. In many states a disposition has manifested itself to delay the endorsement of the Taft boom until the situation in Ohio had been cleared up. This hesitation naturally was advantageous to other candidates who proposed to attempt to create conditions which would insure instruction of delegations for

themselves instead of the secretary of war.

With Ohio in line, there is no doubt in the minds of the administration that other states, particularly those friendly to the president, will hasten to place themselves on record as supporting Mr. Taft. Tonight the supporters of Secretary Taft express themselves as well satisfied with the situation.
